COVID-19 and the Impact on Highway Policy and Funding

In my presentation I will give an overview of the impact COVID-19 has had on highway funding at the state and federal level. Also, its impact on the federal highway reauthorization and the need for emergency relief for the state DOTs.

Managing our Lifelines: Using Smarter Transportation Tools to Move Goods During a Pandemic

As the world copes with #COVID19, the safe delivery of freight to grocery stores, hospitals, and other essential services will keep people alive. Here's how transportation planning and data can maintain the movement of goods during a pandemic.

State Highway Transportation Impacts from COVID-19

Herby Lissade, Deputy Division Chief Principal Transportation Engineer, California Department of Transportation (CALTRANS) and Chair of NCHRP panels on Catastrophic Transportation Emergency Management, a Guide to Emergency Response Planning at State Transportation Agencies, and Emergency Management at State Transportation Agencies. President of Haiti Engineering, a non-profit, providing free engineering technical assistance to Haiti and other countries around the world.
