

JOINT TRAN-SET WEBINAR SERIES

Impact of COVID-19 on Travel Behavior

- Thursday August 3rd, 2023 | 2:00 – 3:30 PM (CST)
- Free registration at: <http://bit.ly/30kgW3v>
- Information at: <https://transet.lsu.edu/webinars/>

Senior Mobility Preferences and Challenges Before and During the COVID-19

The presentation will discuss insights regarding Senior mobility preferences and challenges before and during the COVID-19 pandemic. The presentation will discuss data collected from a national survey of older Americans (65 years and above). The focus will be on presenting travel choices and challenges and ways of improving transportation mobility for American Seniors.

Evolution of Mode Use Due to COVID-19 Pandemic in the United States: Implications for the Future of Transit

This presentation examines the evolution of commute mode use as a result of the Covid-19 Pandemic, with a particular focus on public transit. Through a rigorous modeling approach, this presentation provides a deep understanding of how transit use has evolved, how it is likely to evolve into the future, and the socio-economic and demographic characteristics that affect the evolution of (and expected future use of) public transit.
